

# Town of Lake City Parks and Recreation

## Monthly Report May 2026

**Ski Hill** – Nothing to report

### **Armory** –

The armory apartment is just about done. At this point the tile needs grouted and some plumbing fixtures need hooked up. Jo Ann is trying to be in there by the night of this board meeting. There may be some little things that need to be done on weekends after she moves in.

The sprinkler system was all tested and the water line was buried.

I ordered two basketball backboards and poles for the back court and I patched the slab that was flaking with thin set. The fence was repaired and the trees trimmed. Public Works removed the remaining little concrete slab that the other backboard had sat on.

Danny has spent a lot of time painting the upstairs apartment. The trim and windows needed it badly.

**Ice Rink** - Nothing to report

**Ice Wall** - Nothing to report

**Parks** – The retaining walls and flower planters are all complete. I need to go get flowers which should be this week. The playground people replaced the one slide part. I also want to buy a few more trees for the alley area. A memorial blue spruce was planted at the back of the pavilion. The covered picnic table is finished. The hanging baskets will arrive the first week of June. There will be a lot more watering this year.

Danny is almost done with the summer schedule. Should be out the first week of June.

**Noxious Weeds** – Still waiting for the company in Gunnison to get back to me on a date.

**Trees** – We need to set a date for Arbor Day. Late July or August. It could be a week day.

We will trim trees ourselves throughout the summer as time allows.
